

PRE-COLLEGE AT ECKERD

PREPARE FOR AN UNFORGETTABLE EXPERIENCE

Modeled after our undergraduate curriculum, Pre-College at Eckerd enables students to work with our internationally recognized faculty at our prime waterfront location on the Gulf of Mexico. Rising high school sophomores, juniors and seniors are offered the opportunity to experience Eckerd's academic and residential life during one-week, overnight summer programs. These intellectually rigorous, hands-on programs put students in college-level courses to help prepare them for their future success.
